- (2) an exposure to COVID-19 presents a risk of death or serious long-term disability; the exposure is widespread and poses significant risk of harm, including death, to people in the general population of the city; there is a particular subset of the population that is more vulnerable to the threat and thus at an increased risk; and the threat is from a novel infectious disease; and

- (3) information from the World Health Organization, the Centers for Disease Control and Prevention, Nebraska Department of Health and Human Services, the Northeast Nebraska Public Health Department, local public health departments throughout Nebraska, and members of the City of Wayne and Wayne County medical community indicate that citizens of the city have been and will continue to be exposed due to community transmissions of COVID-19; and

- (5) the number of COVID-19 infections within the city continues to increase; and
- (6) COVID-19 constitutes a public nuisance and a threat to the health, safety, and welfare of the city; and
